

謝瑋精氣功中心氣功教學大綱 Tse Qigong Centre Qigong Syllabus

I have been training Qigong and Traditional Chinese Martial Arts for since I was fourteen years old. Over the years, I have come to understand that those traditional skills that have passed down for hundreds and even thousands of years, have proven themselves by their very existence today. They are very good and safe skills. These true skills are not just fashions that come and go. They are traditional skills that have been passed down generation after generation out of respect and from the benefit they give to society.

I myself also try to keep all these traditional skills so that they can be passed down. As I have been training quite a long time, I have also contributed some of my own knowledge to make the skill suitable for today's society. This Qigong Syllabus is arranged to try to help all my students and the following generations to benefit as much as possible. I hope it can help all of you.
